# Summer sips

A season best served chilled

## TROPICAL COOLER ₹895

A high-energy, "vacation in a glass" drink. The inclusion of Jasmine Tea water adds a floral element to the traditional vodka-pineapple-passionfruit combo, making it more elegant than a standard beach punch.

## BLOOD & SAND. ₹945

A North African twist on a New York Sour. It's designed to feel like a sunset in a Moroccan spice market—vibrant, aromatic, pomegranate and rose combination adds a deep cranberry-like acidity that cuts through the oaky bourbon

## MEZCAL FASHION ₹1295

A vacation in a glass. It takes the "stiff" reputation of mezcal and makes it approachable and fizzy for high-summer lounging. It hits every part of the palate: smoke from the mezcal, tartness from passion fruit, and a freshness from cucumber, ginger finish.

## LAVENDER BLISS ₹895

A cooling sanctuary. This is the most refreshing option for those who want something light, fragrant, and elegant.

## KUMQUAT SOUR ₹845

Inspired by Mediterranean orchards. It's a "sunshine drink" that uses house-made preserves to ensure a rich, velvety mouthfeel. Kumquat provides a tiny, concentrated citrus punch that is more complex than standard lime.

## THE G&T ₹895

high-end reimagining of the world's most popular summer drink, focused on aroma-first enjoyment. Toasted rosemary adds a campfire aroma to a bright, citrusy classic.
